INTRODUCTION

The Board of Regents of the University System of Georgia was established with the responsibility for "the government, control, and management" of all the state supported colleges and universities by an Act of the General Assembly signed by Governor Richard B. Russell to be effective on January 1, 1932. This plan for the governance of higher education was incorporated in the Constitution of Georgia in 1943, at which time the Board of Regents became a Constitutional Board.

The Board of Regents executes its Constitutional responsibilities in two primary ways:

A. by adopting policies to provide general guidelines for governing the University System, and

B. by electing a Chancellor of the System and, under his supervision, presidents of the institutions who are given the responsibility and the authority for the administration of the System in accord with the adopted policies.

The official title of this publication is THE POLICY MANUAL OF THE BOARD OF REGENTS. The policies published in this manual supersede all policies previously adopted by the Board of Regents, and, to the extent of any inconsistency, take precedence over all other statutes, policies, procedures, rules, and regulations published by any person or unit within the University System including those in other official manuals.

Reference in this manual to previous actions of the Board of Regents are recorded to preserve the historical context. The statements contained herein constitute the current policies of the Board, and all future actions of the Board concerning these policies shall be based on the statements in this manual at the time of its adoption.

A. Heads of Institutions

1. Heads of Institutions: The President of each institution in the University System shall be the executive head of the institution and of all its departments, and shall exercise such supervision and direction as will promote the efficient operation of the institution. He shall be responsible to the Chancellor for the operation and management of the institution and for the execution of all directives of the Board and the Chancellor. He shall be the ex officio chairman of the faculty and shall preside at meetings of the faculty. At those institutions which have a council, senate, assembly, or any such body, he shall serve as chairman of such body and shall preside at its meetings. He shall be the official medium of communication between the faculty and the Chancellor, and between the council, senate, assembly, or any such body and the Chancellor. He shall recommend to the Board of Regents, through the Chancellor, the initial appointment of faculty members and administrative employees of each institution, the salary of each, and all promotions and tenure awards. He shall be authorized to make all reappointments of faculty members and administrative employees, except as otherwise specified in the Policy Manual of the Board. He shall have the right and authority, with the approval of the Chancellor, to fill vacancies in the faculty between meetings of the Board with the understanding that these appointments shall be approved by the Board as hereinbefore provided. He shall have the right and authority, with the approval of the Chancellor and the Board, to grant leaves of absence to members of the faculty for study at other institutions or for such reasons as the Board may deem
proper. He shall make an annual report to the Board, through the Chancellor, of the work and condition of the institution under his control.

The President shall perform such other duties and shall have such other powers as authorized by the Board and as set forth in the Policy Manual of the Board.

2. **Election of Heads of Institutions:** The Board shall elect the presidents of the institutions at the February monthly meeting.

3. **Resignation and Removal of Heads of Institutions:** The president of each institution shall give the Board, through the Chancellor, three months' notice of his intention to resign; the Board, through the Chancellor, shall notify the President not later than April 1, of its decision not to reelect him for the ensuing fiscal year. The Board may at any time remove the president of any institution for cause without giving notice; but upon request made within ten days thereafter, any president so removed shall be furnished a statement of the charges against him, and should he demand it within ten days after the receipt of the charges, he shall be given a hearing before the Board, or a committee of the Board, as the Board may determine. The action of the Board shall be final.

**B. Faculties**

1. **Faculty Membership:** The faculty of each institution of the University System shall consist of the Corps of Instruction and the Administrative Officers.

2. **Corps of Instruction:** Full-time professors, associate professors, assistant professors, instructors, lecturers, and teaching personnel with such other titles as may be approved by the Board, shall be the Corps of Instruction. Full-time research and extension personnel and duly certified librarians will be included in the Corps of Instruction on the basis of comparable training. Persons holding adjunct appointments or other honorary titles shall not be considered to be members of the faculty.

3. **Administrative Officers:** Faculty status of full-time administrative officers will necessarily vary with the size and complexity of the institution. A faculty member who has academic rank and rights of tenure in the Corps of Instruction and who accepts an appointment to an administrative office shall retain his academic rank and rights of tenure as an ex officio member of the Corps of Instruction but shall have no rights of tenure in the administrative office to which he has been appointed. The additional salary, if any, for the administrative position shall be stated in the employment contract and shall not be paid to the faculty member when he or she ceases to hold the administrative position. An administrative officer having faculty status shall have all the responsibilities and privileges of faculty membership. Administrative officers shall be appointed by the president with the approval of the Board of Regents and shall hold office at the pleasure of the president.
4. **Election of Faculties:** The Board shall elect all faculty members prior to their initial appointments upon the recommendations of the Chancellor and the president of the appropriate institution.

5. **Employment Provisions:** A member of the Board of Regents shall not recommend any person for employment at any of the units of the University System.

The basic criteria for the appointment and promotion of faculty in the several institutions of the University System shall be appropriate qualifications and performance as set forth in the **Policy Manual** of the Board. Relationship by family or marriage shall constitute neither an advantage nor a disadvantage.

No individual shall be employed in a department or unit which will result in the existence of a subordinate-superior relationship between such individual and any relative of such individual through any line of authority. As used herein, "line of authority" shall mean authority extending vertically through one or more organizational levels of supervision or management. This standard does not apply to the temporary or part-time employment of children under age 25, nor to any individual employed as of February 14, 1990, at any institution where a relative of such individual then holds a superior position at least one level of supervision removed from such individual in any line of authority. Exceptions may be approved by the Board of Regents upon recommendation of the Chancellor as being clearly in the best interest of the Institution and the University System.

For the purpose of this policy, relatives are defined as husbands and wives, parents and children, brothers, sisters, and any in-laws of any of the foregoing.

No person shall, on the ground of race, color, sex, religion, creed, national origin, age, or handicap be excluded from employment or participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the Board of Regents of the University System of Georgia or any of its several institutions now in existence or hereafter established.

The members of the faculty shall not engage in any occupation or pursuit which will interfere with the regular and punctual discharge of their official duties. The Board may from time to time adopt additional restrictions and limitations on outside activities of employees as set forth in the **Policy Manual** of the Board.

6. **Faculty Meetings:** Each faculty shall meet at least once each quarter and at such other times as may be necessary or desirable, except at those institutions which have a council, senate, assembly, or other such body, in which case the faculty shall meet at least twice a year. Each faculty shall appoint a secretary who shall keep a record of the proceedings. A copy of the minutes of each meeting of the faculty and of each meeting of the council, senate, assembly, or other such legislative body shall be sent within three days after the meeting to the Chancellor, who shall keep the minutes on file in his office.

7. **Faculty Rules and Regulations:** The faculty, or the council, senate, assembly, or such other comparable body, shall make, subject to the approval of the President of the institution, the Chancellor and the Board, statutes, rules and regulations for its
governance and for that of the students; provide such committees as may be required; prescribe regulations regarding admission, suspension, expulsion, classes, courses of study, and requirements for graduation; and make such regulations as may be necessary or proper for the maintenance of high educational standards. A copy of the statutes, rules and regulations made by the faculty shall be filed with the Chancellor. The faculty shall prescribe rules for the regulation of student publications, athletics, intercollegiate games, musical, dramatic and literary clubs, fraternities and sororities, and all other student activities and affairs, subject to the approval of the President of the institution, the Chancellor and the Board.

8. Employment, Resignation and Removal of Faculty Members and Other Personnel of Institutions:

a. Tenured

All tenured faculty members employed under a written contract for the fiscal or academic year of three quarters shall give written notice of their intention to resign to the president of the institution or to his/her authorized representative, postmarked no later than February 1, immediately preceding the expiration of the contract period.

b. Nontenured

1. Each year, on or before the dates specified in Regents' Tenure Regulations, the president of an institution or his/her authorized representative, shall advise, in writing, all non-tenured faculty who have been awarded academic rank (instructor, assistant professor, associate professor, professor) and who are employed under written contract whether an employment contract for the succeeding academic year will be offered to them. Such written notice shall be delivered by hand or by certified mail, to be delivered to the addressee only, with receipt to show to whom and when delivered and the address where delivered.

c. Faculty members and other personnel employed under written contract on a temporary appointment shall be employed only for the term specified in the contract and the contract shall not be automatically renewed.

d. Procedures for Removal of Faculty Members

Introduction

These procedures shall apply only to the dismissal of a faculty member with tenure, or a nontenured faculty member before the end of the term specified in his/her contract.

It is intended that the procedures set forth below shall be considered as minimum standards of due process and shall not be construed as a limitation upon additional standards or procedures, consistent with the Policy Manual and Bylaws of the Board, which an institution of the System may elect to adopt for its own improvement or to make adjustment to its own particular circumstances. Such additional standards or procedures shall be incorporated into the statutes of the institution.

The president may at any time remove any faculty member for cause. Cause or grounds for dismissal are set forth in the Tenure regulations of the Policy Manual of the Board and in the approved Statutes or Bylaws of an Institution. Whenever the words "President" or "Administration" are used in these procedures, they shall be construed to include the designated representative of the president.

Preliminary Procedures

The dismissal of a tenured faculty member, or a nontenured faculty member during his/her contract term should be preceded by:

1. Discussion between the faculty member and appropriate administrative officers looking toward a mutual settlement.

2. Informal inquiry by an appropriate faculty committee which may, upon failing to effect an adjustment, advise the president whether dismissal proceedings should be undertaken; its advisory opinion shall not be binding upon the president.

3. A letter to the faculty member forewarning that he/she is about to be terminated for cause and informing him/her that a statement of charges will be forwarded to him/her upon request. The faculty member may also request a formal hearing on the

Statutes Committee Minutes

The Statutes and Faculty Affairs Committee met on November 8, 1994 in B-110 from 1:30 to 3:35. The members present were Ken Weatherman, Jim McKeel, Betty Bowman, and Jim Cook. Ken Anderson had a class conflict, Betty Nolan was sick, and Nanette Jaynes was absent.

Since the last Faculty meeting, the Faculty had shown increased interest in the Statutes. Jim Cook received suggestions and questions from Professors Brannan, Babin, Garrard, Singleton, Kemper, Parks, Mugleston, Billingsley, Johnson, and L. Callan. After studying all of their suggestions, he proposed the following amendments to the Committee:

Section C. 3. Add the following sentence: "The presiding officer shall determine if a quorum is present."

Section D. 7. Replace "handicap" with "disability."

Section F. 3. Add to the last sentence: "indicating that it has been read and understood."

Section J. Instructional Council. 4. Add "academic" before rules and regulations.

Section J. Instructional Council. 5. Add at the end: "When acting as an Executive Committee, the Instructional Council shall report such actions to the Faculty as soon as practicable."

Section J. Student Affairs Committee. Add: "5. The Committee shall oversee the intramural athletic program through the establishment of an Intramural Athletics Committee."

Renumber 5. and 6. as 6. and 7.

Section J. Student Affairs Committee. Delete the previous recommendation of moving this committee from Faculty Committee to College Committee.

Section J. Institutional Effectiveness Committee of the College. Change 5. to read: "The Committee shall assist the President in complying with policies and mandates from the Southern Association of Colleges and Schools, the University System of Georgia, and other accrediting or regulatory bodies in the area of institutional effectiveness.

The Committee approved all of these changes unanimously.

Dr. Cook then presented to the Committee all of the suggestions and comments he had received. The Committee discussed them at some length, but approved no
other changes in the Statutes. It defeated Professor Anderson’s proposal from the last Faculty meeting—"Delete ‘on the ground of race, color, gender, religion, creed, national origin, age, or handicap’ from Section D. 7 of the Statutes and replace with ‘on grounds irrelevant to merit and performance.’" It defeated Professor Garrard’s suggestion that either "sexual orientation or sexual preference" be included in the nondiscrimination clause in the Statutes. And it defeated Professor Parks’ suggestion that off-campus coordinators be designated members of the Instructional Council.

The Committee authorized Dr. Cook to incorporate these new approved changes in the Statutes and distribute copies to each division so that interested parties could study the document before the next Faculty meeting. The Committee agreed to hold an open forum for faculty and staff to discuss the Statutes with the Committee on Wednesday, November 16, from 1:00 to 2:30 in the President’s Conference Room. The meeting was then adjourned.

STATUTES AND FACULTY AFFAIRS COMMITTEE

The Statutes and Faculty Affairs Committee met at 2:00 p.m. on Thursday, April 22. Present were Dr. James Cook, Mr. Harold Boyd, Mrs. Betty Nolen, Mr. Ken Anderson, Mrs. Belen Nora (for Betty Bowman), Mrs. Nanette Jaynes, Mr. David McCorkle, Jr., and Mr. James McKeel.

Dr. Cook opened the meeting by distributing information packets for a new committee structure proposed by Dr. Cundiff. Seventeen committees are to be considered for the college.

Group discussion followed concerning how to approach the charge to the committee. Structure, tasks, membership composition, membership size, length of service, faculty/staff rotation, and other items were topics of discussion. Committee members will use current statutes and the Board of Regents Policy Manual as reference guides to help them with their charge.

Each member will carefully study the proposed committee structures before the next meeting which is tentatively set for 2:00 p.m. on Thursday, May 27. Mrs. Nolen will prepare a committee comparison chart for use at the next meeting.

With no other topics to discuss, Dr. Cook adjourned the meeting at 2:55 p.m.

Respectfully submitted,

Betty Nolen, Secretary
The Statutes and Faculty Affairs Committee met on May 27, 1993 from 2 p.m. to 4:00 p.m. in the B-Conference room.

Dr. James Cook, Chairman, polled the committee members on their reaction to the proposed committee line-up.

The general consensus was:
that the new proposal calls for too many committees with too many meetings and with no faculty authority, replacing a system consisting of a few committees with some authority and fewer meetings.

In reviewing the specific committee plans, the members suggested:
that there was much duplication and overlap (e.g. Student Retention and Minority Success),
that regular meetings and reports were required of committees which rarely need to meet (e.g. Grievance Committee), and that the proposal included much vague and imprecise language, such as “agenda dialogue,” “various reports and documents,” and “various constituent groups.” The meaning of such terms was unclear to the committee.

It was suggested that the representation of different levels of organizational hierarchy was worthwhile, but there was concern over the concentration of power at the top and the reduction of faculty authority.

It was agreed that Dr. Cook should meet with Dr. Cundiff to discuss the whole proposal and specifically to discuss:

1. The urgency for such drastic change,
2. The use of standing committees for deadline projects, and
3. The need for multiple committees which would all use faculty representatives from a small total pool of full-time faculty members.

working from Mr. Johnson’s notes
The Statutes and Faculty Affairs Committee met on June 24, 1993 from 1 p.m. to 3:30 p.m. in the President’s Conference room.

Dr. James Cook, Chairman, opened the meeting by introducing our guest, Ron Johnson, who then spoke to the committee about the College’s new TQM Plan. He explained that TQM was a “philosophy” or “mind-set” which uses the entire organization to solve problems effectively or to introduce needed improvements. He explained that Dr. Cundiff wants to encourage involvement of students, faculty, and staff in the College’s decision-making processes, and that TQM will help the College to accomplish this. Ron mentioned that Georgia Tech is currently very involved with TQM and could be a source of information. Committee members asked several questions which Ron answered before he left.

The committee then used the existing committee structures from the College Faculty and Staff Handbook and the proposed committee structure notes to analyze the following committees: Library, Statutes and Faculty Affairs, and Instructional Council. Rough drafts (based on committee consensus) of the three structures will be typed by the secretary and given to the committee members on Monday. A copy of the proposed Student Affairs Committee structure will be distributed at the same time.

Before the next meeting, the committee members will consider individually the following committees: Curriculum, Student Affairs, and Enrollment Management, Admissions, Academic Placement & Academic Progress.

The next meeting will be on Wednesday, June 30 at 1 p.m. in the President’s Conference Room.

Respectfully submitted,

The Statutes and Faculty Affairs Committee met at 1:00 p.m. on Wednesday, June 30. Present were Dr. James Cook, Mrs. Betty Nolen, Mr. Ken Anderson, Mrs. Belen Nora (for Betty Bowman), Mrs. Nanette Jaynes, Mr. Richard Hays (for David McCorkle, Jr.), Mr. Ken Weatherman, and Mr. James McKeel.

Dr. Cook opened the meeting with a request that the committee review last week's minutes and rough draft committee notes. The documents were discussed and then were approved after making two minor changes for wording changes/typing corrections.

The group then moved on to thoroughly discuss and prepare a rough draft form for the following committees: Curriculum, Student Affairs, and Academic Progress.

After a lengthy discussion of which terminology was best, the group agreed that we should remember that what we have worked on thus far is just a ROUGH DRAFT and not the final document. After all committees are in draft form, the entire committee structure will be analyzed again before it is finalized for recommendation.

Before the next meeting, the committee members will individually consider the following committees and be prepared to discuss them as a group: Computer, Grievance, and Capital Improvement.

Dr. Cook adjourned the meeting at 3:00 p.m. after announcing that the next meeting will be on Wednesday, July 7 at 1 p.m. in the President's Conference Room.

Next, Dr. Cook introduced Russ Cheadle and thanked him for attending our working session on the Computer Committee of the College. Russ had written a memorandum to the committee concerning an Academic Computer Resources Advisory Committee.

He also furnished copies of faxed information on EDP Plans from Darton College, Kennesaw State College, Georgia Institute of Technology, Armstrong State College, and Georgia College.

MINUTES

STATUTES AND FACULTY AFFAIRS COMMITTEE

The Statutes and Faculty Affairs Committee met at 3:00 p.m. on Tuesday, August 24. Present were Dr. James Cook, Mrs. Betty Nolen, Mrs. Belen Nora (for Betty Bowman), Mrs. Nanette Jaynes, Dr. Richard Hays (for David McCorkle, Jr.), Mr. Jim McKeel. Members absent: Mr. Ken Anderson, Mr. Ken Weatherman, and Mr. Harold Boyd.

Dr. Cundiff reviewed the rough drafts of committee structures and addressed the group to give his comments and insight.

Overall he was satisfied with the committee's efforts toward drafting the committee structures. The committee asked if the Staff Improvement and Minority Success Committees could be dropped from our committee considerations. Dr. Cundiff had no objections to this request.

Dr. Cundiff made some suggestions for minor changes in terminology such as define "scholarship" and "faculty". Further, he suggested that each committee should make an annual report of progress which summarizes what they did during the year. He felt that reading the minutes would not suffice for this purpose.

Dr. Cundiff also reviewed the work being planned for academic discipline review committees. He mentioned cycles of 3, 5, or 7 years, with 5 or 7 year cycles preferred at Floyd College. Oversight for this work should be given to a standing committee.

Before he closed his remarks, Dr. Cundiff posed 2 questions of the group: (1) How do we proceed from here? (2) Is this where we need to be for the next 5 - 10 years? He closed by saying that the committee structures should be future oriented, and involve input from as many people on campus as possible.

Next, Dr. Cook distributed the minutes from the last meeting. The minutes were reviewed and approved as written.

The committee discussed the comments made by Dr. Cundiff and agreed to meet on Wednesday, September 1 at 9:00 a.m. to finalize the committee structures.

Dr. Cook adjourned the meeting at 4:48 p.m.

Respectfully submitted,

Betty Nolen 9/1/93

STATUTES AND FACULTY AFFAIRS COMMITTEE

The Statutes and Faculty Affairs Committee met at 9:00 a.m. on Wednesday, September 1. Present were Dr. James Cook, Mrs. Betty Nolen, Mrs. Belen Nora (for Betty Bowman), Mrs. Nanette Jaynes, Mr. Ken Anderson, and Dr. Richard Hays (for David McCorkle, Jr.). Members absent: Mr. Ken Weatherman, Mr. Jim McKeel, and Mr. Harold Boyd.

First topic of discussion was the Instructional Council. Dr. Cook distributed a rough draft of the committee structure. After a short discussion among the members, the draft was approved on a Nora, Anderson motion.

The group then discussed several small changes to the Academic Progress Committee structure. Items 7 and 9 were transferred to the Financial Aid Committee. The word "scholarship" was replaced by "student’s academic performance."

The group then discussed the current definition for "faculty." Dr. Cook will research the Board of Regents Policy regarding the definition before our next meeting. Members reviewed the composition of the faculty as currently defined, and discussed benefits and voting rights. The discussion and the completion of the committee’s recommendation for a definition will be continued at the next meeting.

Next, Dr. Cook distributed the minutes from the last meeting. The minutes were reviewed. One small change was suggested and accepted by the committee before approval of the minutes.

Dr. Cook will make the few recommended changes to the rough drafts and circulate the finished drafts for committee review before the next meeting.

The committee needs to finalize our work, forward it for Dr. Cundiff’s approval, and present it for a vote at the next faculty meeting. Therefore, the committee will meet again at 9:00 a.m. on Friday, September 3.

Dr. Cook adjourned the meeting at 10:35 a.m.

Respectfully submitted,

Betty Nolen, Secretary

2. Qualifications for Appointment
a. Minimum qualifications for all academic ranks at Floyd College shall be the following:

(1) Master's degree. Exceptions may be made for:
   (a) persons of special learning and ability;
   (b) promising individuals who have recently acquired the bachelor's degree and are proceeding
       with their graduate training; and
   (c) temporary emergency appointments.

(2) Evidence of ability as a teacher.

(3) Evidence of scholarly competence and activity.

(4) Successful experience (this must necessarily be waived in the case of beginners who meet all
    other requirements).

(5) Desirable personal qualities judged on the basis of a personal interview, complete biographical
    data, and recommendations.

3. Non-tenured faculty and other non-tenured personnel employed under written contract shall be employed
   only for the term specified in the contract and the contract shall not be automatically renewed.

4. Faculty members and other personnel employed under written contract on a temporary appointment shall
   be employed only for the term specified in the contract and the contract shall not be automatically renewed.

5. Notice of intention to renew or not to renew a non-tenured faculty member who has been awarded
   academic rank (Instructor, Assistant Professor, Associate Professor, Professor) shall be furnished, in writing,
   according to the following schedule:
   a. at least three months before the date of termination of an initial one-year contract.
   b. at least six months before the date of termination of a second one-year contract.
   c. at least nine months before the date of termination of a contract after two or more years of
      service in the institution.

This schedule of notification does not apply to persons holding temporary or part-time positions, or persons
with courtesy appointments, such as adjunct appointments.

6. All tenured faculty members employed under written contract for the fiscal year or academic year of
   three quarters shall give to the President or his authorized representative written notice of their intention
   to resign, postmarked no later than February 1 immediately preceding the expiration of the contract period.

7. No person shall, on the ground of race, color, sex, religion, creed, national origin, age, or
   handicap, be excluded from employment or participation in, be denied the benefits of, or otherwise be subjected
   to discrimination under any program or activity conducted by Floyd College.

Section E. Employment of Relatives

1. The basic criteria for the appointment and promotion of faculty shall be appropriate qualifications
   and performance as set forth in The By-Laws and Policies of the Board of Regents. Relationship by family or
   marriage shall constitute neither an advantage nor a disadvantage.

2. No individual shall be employed in a department or unit under the supervision of a relative who has
   or may have a direct effect on the individual's progress, performance, or welfare.

3. For the purpose of this policy, relatives are defined as husbands and wives, parents and children,
   brothers, sisters, and any in-laws of any of the foregoing.

Section F. Annual Evaluations

Each full-time faculty member who holds the rank of Instructor, Assistant Professor, Associate Professor, or
Professor shall be evaluated annually by his supervisor in accordance with the guidelines listed below. Annual
evaluations shall be utilized in preparing recommendations concerning salary, tenure, and promotions.

1. Criteria for evaluation shall be those mentioned for promotion in The By-Laws and Policies of the
   Board of Regents: superior teaching, outstanding service to the institution, academic achievement, professional
   growth and development, and length of service.

2. The faculty and chairmen of each division shall produce a written document specifying the role of
   various instruments such as student evaluations, peer evaluations, and self-evaluations that will be used in
   the annual evaluation. It shall be the responsibility of the division chair to see that such a document is
   prepared and that it is reviewed by the division at the beginning of each fall quarter. Any statistics
derived from student evaluations which are used for comparative purposes shall be based on at least the equivalent of two quarters of full-time instructional effort.

3. The annual evaluation of first and second-year faculty members shall be completed by April 15, all others by January 15. The supervisor shall discuss the evaluation with the faculty member, who may choose to read and/or respond to the evaluation. Following the discussion the faculty member shall sign the evaluation.

Should the faculty member elect to prepare a written response, the supervisor will acknowledge in writing receipt of this response, noting changes, if any, in the annual evaluation made either as a result of the conference or the faculty member’s response. This response shall become a part of the record.

Within two weeks of the above dates the evaluation, together with the faculty member’s response, if any, shall be forwarded to the Vice President’s Office by the supervisor. The supervisor shall retain a copy of the evaluation and permit access by a faculty member to the evaluation.

Section G. Tenure and Promotion

1. The tenure policies of the Board of Regents may be found in The By-Laws and Policies of the Board of Regents.

2. Tenure and Promotion Criteria

a. Applicability

The criteria and procedures described in this section shall apply to all instructional faculty who are not under the supervision of a division chairman. Recommendations concerning tenure and promotion for faculty who are not under a division chairman may be made by that individual’s immediate supervisor or by the chairman of the division in which he holds an academic rank. All recommendations for the awarding of tenure and promotion of division chairman shall be made by the Vice President. General criteria described under Section G 2 b shall apply to all faculty, where appropriate. Appeal procedures described under Section G 3 shall apply to all faculty.

b. General Criteria

For the awarding of tenure or promotion, the criteria are specified in The By-Laws and Policies of the Board of Regents. They include superior teaching, outstanding service to the institution, professional growth and development, academic achievement, and length of service. Evaluation of a candidate’s performance in these areas should, in large measure, be based upon past annual evaluations of the candidate.

(1) Superior Teaching. Teaching includes any faculty activity within the formal academic program of the College which involves the communication of knowledge, the fostering of intellectual skills, and the promotion of human development. Success in teaching shall be the most important consideration in evaluating those candidates whose duties are primarily of an instructional nature. Without successful teaching, no other consideration will be sufficient to warrant the awarding of tenure or granting of a promotion.

The assessment of success in teaching must entail more than the accumulation of statistics; it must also depend upon the judgment of the evaluators using such evidence as is appropriate and reliable. Such evidence shall include past annual evaluations and may include additional supporting materials such as recommendations from former students, teaching materials, and indication of enrichment of the academic program.

(2) Outstanding Service to the Institution. The Faculty share a responsibility for sustaining the College as an educational community. Every faculty member is expected to contribute time and energy to this task at the divisional, College, and/or University System level by working on committees, working in campus organizations, and serving in whatever other ways seem useful to the promotion of the College’s well-being.

(3) Academic Achievement. In order to be promoted to the rank of Assistant Professor or awarded tenure a faculty member must have the master’s degree or its equivalent in training and experience. In order to be promoted to the rank of Associate Professor or Professor a faculty member must have a terminal degree or its equivalent.

(4) Professional Growth and Development. A faculty member should continue to grow intellectually and professionally. Evidence of professional growth may include publications, research grants, positions in professional and scholarly organizations, lectures, exhibitions, performances, consultancies, and development of new courses. Work toward a terminal degree shall also be considered, though consideration of such courses should not prejudice faculty who possess a terminal degree.

(5) Length of Service. A person appointed as Instructor normally shall serve in that rank for a minimum of two years before being eligible for promotion. A person appointed or promoted to the rank of Assistant or Associate Professor normally shall serve in that rank for a minimum of five years before being eligible for promotion. Longevity of service is not a guarantee per se of promotion.
3. Tenure and Promotion Recommendations and Appeals
   a. Recommendation Process

   (1) Each division chairman shall submit to the Vice President his recommendations concerning the
       awarding of tenure and/or promotions to faculty members of his division. He shall provide each
       faculty member with a copy of his recommendation two months prior to the date that such
       recommendations must be submitted to the Board of Regents.

   (2) All division chairmen, together with other supervisors submitting recommendations, shall meet
       with the Vice President as a group and discuss the recommendations which he has received. The Vice
       President shall require each person to present evidence to support his recommendations and shall
       consider advice of the group in determining his actions on the recommendations.

   (3) Within two weeks of receiving the recommendations for tenure and promotion, the Vice President
       shall submit all recommendations, with an indication of his approval or disapproval, to the President
       of the College.

   (4) The President shall submit to the Board of Regents his recommendations for the awarding of
       tenure and/or promotion and notify those recommended, their supervisors, and the Vice President.

   (5) Upon the award by the Board of Regents, the individual shall be notified in writing by the
       President with a copy of the notification forwarded to the Chancellor.

   b. Appeals Procedure

   (1) A faculty member dissatisfied with his division chairman's recommendation, or lack thereof, for
       granting of tenure and/or promotion may attempt to resolve his concerns in direct discussion with his
       division chairman. He may confer with the Vice President.

   (2) A faculty member dissatisfied with the Vice President's initial action on a recommendation
       concerning tenure and/or promotion for that faculty member is entitled to a hearing by the
       Promotion and Tenure Appeal Committee, which shall submit its recommendations to the Vice
       President.

   (3) Upon receipt of the Vice President's final decision, the faculty member has two weeks to submit
       a written notification of appeal to the President. (Detailed grievance procedures are
       contained in the Policies and Procedures of Floyd College.)

Section H. Removal and Suspension

The President may at any time remove any faculty member or other employee of the institution for cause. Cause
shall include willful or intentional violation of The By-Laws and Policies of the Board of Regents. Further
causes or grounds for dismissal are set forth in the tenure regulations of The Policy Manual of the Board of
Regents.

Section I. Duties, Responsibilities, and Privileges

1. The academic year is defined in the faculty contract. The teaching load may be assigned in (1) the
day program, (2) the evening program, or (3) the day and evening programs combined.

2. Each full-time faculty member is employed for the academic year of three quarters only, and, if his
   service should be needed during the summer quarter, a separate contract will be made with him covering his
   services for the summer quarter.

3. The leave policy shall be that set forth by The By-Laws and Policies of the Board of Regents.

4. Administrative officers and members of the Faculty whose work is of a type requiring continuous
   service may be appointed to serve during the four quarters of the academic year. In fixing salaries of members
   of the Faculty and staff serving on this basis, consideration shall be given to the fact that they may be
   required to be on duty for a period longer by one-third than are those whose appointments are on a three-quarter
   basis.

5. When an employee of the College had been incapacitated by illness or injury, his salary may be
   continued in accordance with the provisions of The By-Laws and Policies of the Board of Regents.

6. A faculty member is expected to participate in activities concerning the internal administration of
   the College. He shall be encouraged to participate, in a manner befitting his academic position, in non-
   teaching activities which are a proper extension of his professional field of interest. Annual divisional
   reports shall make reference to such activities on the part of members of the Faculty.

7. The following policies relate to academic freedom:

   a. A member of the Faculty is free to express, inside or outside the classroom, his opinion on any
matter that falls within the fields of knowledge which he is employed to teach and to study, subject only to those restrictions that are imposed by high professional ethics, fair mindedness, common sense, accurate expressions, and generous respect for the rights, feelings, and opinions of others. The faculty member should be careful in his teaching to deal adequately with the course matter as described in the College catalog and to maintain respect for varying opinions on controversial matters. He should emphasize the fact that any opinions he expresses are personal and not institutional.

b. Each faculty member should maintain a reputation for scholarship through continuous research and study. No faculty member is entitled to full freedom in research and in publication. Research and study should result in improved teaching.

c. A faculty member, acting individually or in concert with others, who clearly obstructs or disrupts, or attempts to obstruct or disrupt any teaching, research, administrative, disciplinary activity, any public service activity, or any other activity authorized to be discharged or held on campus will have committed an act of gross irresponsibility and shall be subject to disciplinary procedures, possibly resulting in dismissal or termination of employment.

d. Disputations concerning academic freedom may be appealed to the Grievance Committee.

8. Members of the Faculty are expected to attend all College-wide academic exercises. 5. The Division Chairman makes a verbal offer to the individual selected. If the offer is accepted verbally, a letter is mailed from the vice president outlining the position title and salary terms, requesting specific paperwork, and enclosing a copy of Floyd College's Drug Free Work Place Policy.

Emeritus Title Approved

ROBERT E. STIEMKE has been named professor emeritus of civil engineering at the Georgia Institute of Technology. The title, to become effective on March 21, 1976, was approved by the Board of Regents at the January 14 meeting.

Mr. Stiemke, who was born on March 10, 1915, in Milwaukee, Wisconsin, received the B.S.C.E. and M.S.C.E. degrees from the University of Wisconsin. He has served as a professor of civil engineering at Georgia Tech since he joined that institution in 1950. He also served as director of the School of Civil Engineering in 1950-61, as director of the Engineering Experiment Station in 1961-63, as associate dean of civil and environmental engineering in 1963-66, as acting dean of the College of Engineering for six months in 1966, and as vice president for special projects in 1966-68.

He is scheduled to retire in March, 1976.
REGENTS MEETING

February

• Board of Regents of the University System of Georgia held its second regular monthly meeting in 1976 at the office in Atlanta on February 11.

• Approval was given to the revised statutes of South Georgia College, as proposed by the president of the college. The statutes, approved by faculty members of South Georgia College in November, 1975, have been studied and reviewed by appropriate staff members of the Board of Regents and, with minor corrections only, are in accordance with the policies of the Board, the Regents were informed.

• Approval was given to the statutes of Albany Junior College, as proposed by the president of the college. The statutes, approved by the president and faculty members of Albany Junior College in January, 1976, have been studied and reviewed by appropriate staff members of the Board of Regents and are in accordance with the policies of the Board, the Regents were informed.

• Authorization was given for the execution of an agreement to create a trust under which the Real Estate Scholarship Foundation of Georgia Association of Realtors, Inc. will be endowed at the University of Georgia. The fund will be established with a donation of $6,211, from the Georgia Association of Realtors, Inc. Under terms of the agreement, the income from the trust estate is to be used to provide one or more annual scholarships to students in the University of Georgia's Department of Real Estate and Urban Development, according to a report to the Regents. A provision in the agreement provides that the trust estate be invested in Clarke Federal Savings and Loan Association, Athens, Georgia, "for as long as this depository continues in business and continues to pay the interest rate commensurate with like depositories as determined by the trustee," the Regents continued.

• The stated intention of the donor that the trust estate shall have a minimum value of $10,000," the Regents said, advised.

• Authorization was given for an increase in the quota of nonresident tuition fees for foreign students at Augusta State College, from 8 to 11.

• According to a policy of the Board of Regents, the waiver of nonresident tuition fees for foreign students attending units of the University System under the financial sponsorship of religious groups located in the state is permitted, provided the number of such waivers at the institution to be approved does not exceed that institution's quota determined by the Board of Regents.

• Augusta State College President S. Walter Martin recommended an increase in the quota of waivers to permit the admission of additional sponsored foreign students, the Regents were advised.

• Approval was given to appointments and leaves of absence of faculty members at institutions of the University System.

Academic Additions (Continued from Front Cover)ing to supportive material presented to the Board.

Instruction for the program will be provided by faculty members from both the Medical College of Georgia and Augusta College.

No additional funds will be required over the first three years to initiate the newly authorized major, the Regents were told.

• Columbus College was given approval to implement the Associate in Science degree program in respiratory therapy, effective "as early as" in the 1976 summer quarter.

This program is designed to produce graduates to provide inhalation respiratory therapy for patients in hospitals and clinics.

Changes in certification regulations for respiratory therapists have greatly increased the number of applicants who have had on-the-job training and who desire formal education in the field of respiratory therapy, the Regents were told in the request for approval of the new program. "National and state standards require that respiratory therapy education and skills be provided in duly accredited programs based in academic institutions," the request continued.

Minority student enrollment in this program is predicted to be 20 percent of the total in the beginning and to increase to 25 percent of the total by 1978-79, the Regents were told. Minority students now constitute 17 percent of the Columbus College student body.

• Floyd Junior College and Southern Technical Institute, four-year division of the Georgia Institute of Technology, received approval to offer a major in fire science under the existing Associate in Science degree programs. The major will be implemented "as early as" in the 1976 spring quarter.

This major is designed to provide general education and specialized training to persons in the fire services and related fields. It "will enable firemen to upgrade themselves professionally and serve their communities more effectively," the Regents were told.

Floyd Junior College will provide general education courses that will total at least 45 quarter credit hours. Southern Technical Institute will furnish personnel to teach the fire science courses, which will total at least 45 quarter credit hours. The Associate in Science degree will be awarded jointly by the two units.

Local city and county governments propose to underwrite part of the expenses incurred by active firemen who participate in this program, in order to encourage local firemen to enroll, according to information presented to the Regents.

"Of the firemen in the Floyd County area who have expressed an interest in this program, 9 percent are classified as minority personnel," the Regents were told. "Since 11 percent of the students at (Floyd Junior College) are classified as minority, this program would not benefit the desegregation effort. The population of firemen as the source of students would constrain efforts toward further desegregation through the proposed program."

Program in Sociology Among Newly Voted Offerings

DEGREE AND MAJOR PROGRAMS, including two pro-
at the graduate degree level, for six institutions of the
ty System were approved by the Board of Regents at

Georgia State University

A State University received approval to offer a pro-
sociology leading to the Doctor of Philosophy degree,
ing beginning as early as the 1976 fall quarter.

d program is designed to provide "an
program of study for individuals who have or want
on roles in urban-oriented education, social re-
rt or community and governmental agencies," the Re-
er were informed in an agenda item. Four special areas of
be pursued are: deviance and penology, the family
ly intervention, urban community, and social geron-
other points covered in the agenda item:
he establishment of the program will enable Georgia to
hance its capacity as a service and research
resource of the metropolitan Atlanta community and
ter of Georgia." 
ights-seven federal, state, and local agencies in the

ng societal problems" have been surveyed by the
a State University Department of Sociology and have
ad a "substantial" demand for graduates of the pro-

The enrollment in the newly approved program is ex-
ed to be 25, 35, and 45 students in the first three years of
m. It is anticipated that part-time students will ac-
for a large percentage of enrollment in the program;
re the time required to complete requirements for the
proposed doctoral degree is expected to range from 3
to 5 years. The number of graduates each year is ex-
d to be eventually 9 to 15.

The program will have "significant positive effects" on
ng desegregation in the University System, both
r enrollment of minority (primarily black) doctoral
ts and by providing minority graduates as candidates
ety of professional positions with community and
ional agencies and for possible teaching positions in

West Georgia College

West Georgia College was given approval to offer a major
in teacher education under the institute's existing Master
uation degree program, effective beginning as early as
976 summer quarter.

The program, which was initially submitted by West
georgia College in January, 1975, is designed to provide
graduate preparation for physical education teachers in the
West Georgia service area, according to agenda material
requesting the Regents' action.

The agenda material also indicated:
Enrollment in the program is expected to be 55, 55, and 60
students in the first three years.

Black students constitute 9.6 percent of the total enrollment
of West Georgia College, but constitute 24.6 percent of
undergraduate majors in the Department of Physical
Education and Recreation. "The college projects that a
responding percentage of blacks (corresponding to the per-
centage in undergraduate enrollment cited) will be maintained
in the proposed graduate program, thus increasing signifi-
ently the enrollment of blacks at West Georgia College."

University of Georgia

The University of Georgia was authorized to implement an
interdisciplinary major in criminal justice under the existing
Bachelor of Arts degree program, effective beginning as early
as the 1976 fall quarter.

"This program . . . (is) designed to respond to the acute
social and economic problems created by and resulting from
criminal activity and weaknesses in the present criminal jus-
tice system," the Regents were informed in agenda material
supporting the request for the new offering. " . . . (It will
further aid in providing better understanding and in encourag-
ing college-educated persons to consider criminal justice as a
career objective."

The supportive agenda material also indicated that:
This will be the only baccalaureate-level program serving
citizens of the Athens-Augusta-Milledgeville area.
The program will "draw heavily" on existing educational
resources of the University, such as political science,
psychology, and sociology.

It is anticipated that 75, 100, and 150 students will enroll in
the program during the first three years of operation.

It is anticipated that 5-10 percent of the students who will
enroll in the major in criminal justice will be black, and such
enrollment would contribute further to the desegregation of
the University. Four percent of the students presently enrolled
in the Franklin College of Arts and Sciences, in which the
newly approved program will be offered, are black.

Floyd Junior College

Floyd Junior College was given approval to offer a major in
dietetic technology under the institution's existing Associate
in Arts degree program, effective beginning as early as
1976 fall quarter.

This program is designed to train dietetic technicians to
work in nursing facilities, intermediate care facilities, and
other community nutrition programs, according to an agenda
item considered by the Regents. It has been requested and
endorsed by hospital administrators and medical personnel in
the Rome area, the agenda item also indicated.

The Regents were also told:
There is not another program of this type in the University
System.
Floyd Junior College recently received a $50,000 federal
grant to support the program.
It is estimated that 18 students will enroll in the program

Medical College is Beginning Contract Arrangement on Food

A contract food-service arrangement for the Medical College of Georgia was approved by the Board of Regents at the July 7 meeting.

The action authorizes the execution of a contract with Interstate United Management Services Corporation, under which Interstate will provide food service in the student center and the cafeteria of the Medical College beginning September 1, 1976.

Food service at the student center and the cafeteria under Medical College management, has been operated at a loss each of the past six years, and these operations have been subsidized through excess revenue over expenses in the other operations of the institution. The Regents were informed that the agreement (with Interstate United Management Services Corporation) will insulate the institution from its losses in the future, the Regents were also advised.

The Medical College solicited competitive proposals from four food service contractors, and, after a review of the three proposals received, requested authorization to enter into a contract with Interstate United Management Services Corporation. "The proposal submitted by this firm (Interstate) provides the best financial advantage to the Medical College and the (Medical College) administration is convinced that the firm can produce the proper results," the information presented to the Regents indicated.

Under terms of the contract with Interstate, which can be cancelled by either party after four weeks by at least 60 days notice in writing, the Medical College will receive 8 percent of the first $550,000 of gross annual sales, 10 percent of the next $100,000, and 12 percent of all sales in excess of $650,000 annually.

The contract "will in no way involve patient food preparation in the (Eugene Talmadge Memorial) Hospital," the Regents were advised.

Board Skips August Meeting

The Board of Regents has not scheduled a meeting in August, but has authorized a procedure for handling business matters requiring decisions between the July and September meetings.

In preparation for skipping this year’s regular August monthly meeting, in line with practice followed in most recent years, the Regents at the July 7 meeting designated some of their officers and committee chairmen to make decisions between-meetings decisions. Between July 8 and September 1, the Board’s Chairman John A. Bell, Jr. and Vice Chairmen Charles T. Oxford, along with the chairmen of Board committees as appropriate, will make decisions on matters referred by Chancellor George L. Simpson, Jr. Such decisions will be included in the agenda for the September meeting of the Board, for formal ratification.

Matters usually requiring decisions between July and September meetings deal with such as contracts, construction, and lease agreements.

The next meeting of the Board is presently scheduled to be held on September 8 in Atlanta.

The faculty members appointed to the committee are Rudolph L. Yobs, Georgia Institute of Technology; James F. Crawford and Donald Ratajczak, Georgia State University; and James L. Green, University of Georgia.

The University System institutions receive applications for Regents’ Scholarships, choose recipients, and determine the amounts and the timing of the awards, subject to policies and regulations of the Board of Regents. The Regents take final action, of approval or disapproval, on each award decision made by an institution.
The project budget for the Addition to Research and Education Building at the Medical College of Georgia was increased $459,183, by ratification of administrative approval, to a new total of $3,301,363.

This project budget increase was requested following receipt of bids for the construction of the project. Administrative approval of the increase was required for the awarding of the construction contract before the lapse of bids, the Regents were told.

The project budget for the Addition to Ecology Building at the University of Georgia was increased $86,425, to a new total of $544,645.

Also, approval was given for the request to the Georgia Education Authority (University) that the project be inserted into the Series 1972 Bond Issue, Exhibit A, Group II.

This project budget increase was requested based on the architect's final estimate of construction cost for the project. All the projects in the Series 1972 Bond Issue, Exhibit A, have been placed under construction, and there remains an unnumbered balance in this bond issue adequate to fund this project,” the Regents were told in the request for approval.

The project budget for the Public Safety Building at the University of Georgia was increased $35,166, to a new total of $113,846.

This project budget increase was requested based on the architect's final estimate of construction cost. It will enable the project to go to bid.

The project budget for the Renovation of Davison Hall at Fort Valley State College was increased $58,728, by ratification of administrative approval, to a new total of $725,160.

This project budget increase was requested following receipt of bids for the construction of the project. Administrative approval of the increase made possible the awarding of the construction contract prior to the March meeting, the Regents were told.

Information Items

Two items of information pertaining to the University's construction program, previously approved administratively, were presented to the Regents.

An increase of $6,840 in the project budget was approved for the Research Building project for the Georgia Experiment Station, Griffin, of the University of Georgia. The additional money provides for the paving of an unfinished area which, in the original plans, was not excavated but which was excavated by a previous change order.

A construction contract in the amount of $1,208,910 was awarded on February 27, 1975, for the Classroom Building project at Columbus College.

FEBRUARY INFORMATION ITEMS

Six items of information pertaining to the University System construction program, previously approved administratively, were presented to the Board of Regents at the February 12 meeting.

CONSTRUCTION PROGRESS INCLUDES NEW PROJECTS

The new construction projects and steps to advance several previously authorized construction projects at institutions of the University System were authorized by the Board of Regents at a meeting on February 13.

New Projects

- Stair Towers, Eugene Talmadge Memorial Hospital, with a project budget of $1,000,000, was authorized for the Medical College of Georgia.
- The tentative appointment of Elmer L. Perry, Jr., Augusta, to prepare preliminary plans and specifications for the project was authorized.
- The Eugene Talmadge Memorial Hospital, constructed in the early 1950's, contains interior stairwells and elevators. The authorized project will provide for exterior stair towers at the end of each wing, which are needed to update the facility to the present life safety codes, the Regents were told in an agenda statement. Feasibility studies conducted have indicated that it is not practical to build the stair towers within the existing structure, the statement indicated.
- Addition to Ecology Building, with a project budget of $300,000, was authorized for the University of Georgia.
- The tentative appointment of Morris Hall and Peter Norris, Atlanta, to prepare preliminary plans and specifications for this project was also approved.
- The Ecology Building, under construction at the University of Georgia, is approximately 60 percent complete, and nothing can be added to the building until the present contract is completed, the Regents were told. This Addition to Ecology Building project will provide for the addition of approximately 3,000 square feet of space as soon as possible, for use as laboratories, graduate student rooms, and offices for the Institute of Resources.
- The firm of Morris Hall and Peter Norris has been recommended as the architect for this project because that firm is the architect for the Ecology Building project, according to the President for approval of the project.

It will include new electrical and mechanical main service sufficient to serve the ultimate renovation of the building, as well as additional fire-exit stairs to bring the building up to compliance with present codes, the Regents were told. The first phase also will convert the main auditorium orchestra seating area to a 450-seat theater with continental seating, and it will provide for other revisions in the auditorium.

- The appointment of Allain and Associates, Inc., Atlanta, to prepare final plans and specifications for this facility also was approved.
- This project is designed to provide approximately 15,000 square feet of space in a steel-frame, masonry-wall, one-story building. It will house all physical plant functions, including maintenance shops, central warehousing, and offices for physical plant operations, custodial personnel, and security personnel.
