FLOYD JUNIOR COLLEGE'S FACILITIES, FUTURE

Physical education needs a foundation

(Last in a series)

Building a total physical education program is like building a house. You have to begin first with a sound foundation.

During the coming year, Jerry Shelton, director of health, physical education and recreation at Floyd Junior College, expects to lay that foundation. But already he has plans for the expansion of the program.

During the college's first quarter, which begins Sept. 30, physical education classes will be held in the Metro Building. In addition, space in the education building of the First United Methodist Church will be used.

Physical education activity courses will not be offered until the spring quarter when outdoor facilities are expected to be ready for use, Shelton said.

Under preparation is a general athletic field which will be used for flag and touch football, field hockey and soccer. Space also is available for two softball fields and for the erection of a general utility "net cage." 

Shelton is particularly excited about the "net cage," and with good reason. The cage can serve as a backstop for archery and golf driving practice, and can be enclosed to form two baseball and softball batting cages.

"It is a unique piece of equipment," Shelton explained. "I have never seen one exactly like it before."

The cage will be 10 feet high, 12 feet wide and 150 feet long. One entire side portion of the cage will be constructed of special, knotless nylon archery netting, with the remainder knotless nylon, golf netting. All nylon netting will be weatherproof for continuous outdoor use. A net will be replaced in each side cage in half to form two areas for baseball and softball batting cages and corners on one side of the cage with have open space for the cage to be opened and the side raised for gold and archery practice.

Plans call for eventually enlarging the physical education building into a physical education complex. The additions will include a new gymnasium, two class rooms, an Olympic-size swimming facility, an equipment storage room, four faculty offices, a gymnastic instructional area, and a general activity room. The field will be used for dance, basketball, tennis, modified bowling, shuffleboard and indoor horseback riding as well as other recreational activities.

Plans for outdoor facilities include great utilization of the area near the campus as well as tennis courts, golf putting greens, and surfaced court for basketball.

Here's the outlook on eight other games involving South

PHYSICAL

(Continued From Page 6-A)

ball and volleyball.

Also, part of the scheme for the future is an intercollegiate athletic program. There will be no intercollegiate athletic program this year, Shelton emphasized, primarily because such a program cannot be financed from the tax monies used for the college's general operation, but also because the physical education director refuses to settle for a second-rate program.

"We will have no intercollegiate athletic program until we can place it on a sound basis," he explained. "Adequate arrangements will have to be made for facilities and funds must be available to finance the program. I'm not interested in a second-rate program. If you begin that way, you establish a pattern that is difficult to change.

"However," he added, "it should be possible to begin a program within one or two years."

But even without intercollegiate athletics, Floyd's physical education program will be through.

State at Jackson—The Bulldogs are building on a fine crop of sophomores who will make some mistakes. Those mistakes will be costly in this opener. Oklahoma State 20-6.

Chattanooga at Vanderbilt—Watson Brown is too clever and too-talented for the Mocs. Vandy 26-0.

South Carolina at Georgia Tech—This should be one of the better games in the nation Saturday. The Gamecocks won their first ACC title last year and are favored to repeat. Tech has staggered through three straight 4-6 campaigns, but embark on a winning season in this one. Tech 13-7.

Louisville at Florida State—Bill Cappleman, the Seminole

Junior College, Coosa Tech join in program

Coosa Valley Tech and Floyd Junior College have announced plans to offer a joint career program leading to the associate degree in secretarial science.

Announcement of the two-year program was made by Derward Powell, director of Coosa Valley Vocational Technical School, and Dr. David McCorkle, president of Floyd Junior College.

The program is designed to give a liberal arts educational background to students wishing to specialize in the secretarial sciences.

Beginning this fall, students enrolled in the program will study technical skills at Coosa Valley Tech during the morning and take courses during the afternoon at the junior college.

The program was developed through a series of meetings between educators at both institutions.

In making the announcement, both Dr. McCorkle and Powell expressed pleasure in the affiliation of the two schools.

"Coosa Valley Tech has excellent facilities, equipment and staff," Dr. McCorkle commented. "We feel it would be a waste of taxpayers' money for Floyd Junior College to attempt to duplicate such facilities."

"We at Coosa Valley Tech look forward to working with the junior college," Powell said.

"We believe that this combined effort will give the students greater employment potential by widening their academic background as well as developing their technical skills.

Students will enroll at both institutions; tuition and fees for a student enrolled full-time in the program will total $100 per quarter. Part-time students will be assessed according to the number of courses taken.

David A. Floyd Company Free and Service Station, and a Delta man who was arrested on a hitchhiker near Rome.

A Rome man was arrested early today in connection with a robbery attempt at a Rome service station and a Delta man who was arrested on a hitchhiker near Rome.

David Lee Wynn, the operator of the Red Ace Service Station at a Redmond Road address, told Floyd County police that near 12:30 a.m. today a man in his thirties drove into the station in a black Mercury and demanded money. Wynn said that the man threatened his life, but drove away when he was unable to obtain the money.

Shortly after the robbery attempt, Detective Jim Free and Patrolman Don Vick arrested Clayton Tucker, 22, of Woods Road, Rome, at the Rome police station.

Tucker was charged with attempted robbery and burglary and is being held at the county jail in lieu of $10,000 bond.

A burglar occupied the home of David A. Floyd Company Free, 4th Avenue, Rome, Georgia. The burglar, who was arrested later in the same day, was a plottin of jewelry and a tape record containing $300 in cash.

An attempt to rob a Rome man was made early today in connection with a robbery attempt at a Rome service station and a Delta man who was arrested on a hitchhiker near Rome.

Bekaert to dedicate Rome plant Thursday

Bekaert Steel Wire Corp. will formally dedicate its first American manufacturing facilities in ceremonies Thursday at the plant site off the East Rome traffic interchange.

The dedication, beginning at 11 a.m., will be attended by top officials of the Belgian-based international firm, the Belgian government, Georgia representatives headed by Gov. Lester Maddox, Lt. Gov. George T. Smith, Lt. Gen. Lewis W. Thurman (Ret.), director of the Georgia Department of Industry and Trade, and Rome and Floyd County officials and civic leaders.

Principal Spokesmen

Principal spokesmen during the dedication ceremonies will be Belgian Ambassador Walter Loridan, Marc Verhaeghe de Nayer, chairman of the Board of Bekaert, A. J. Van Goylen, president of Bekaert North America, and Governor Maddox.

Charles W. Jessely, manager of the Rome plant, will preside at the ribbon cutting.

Mrs. Jules Velge, daughter of the company's founder, will cut the ribbon marking the formal opening.

Other top company officials on hand for the occasion will be Jean Charles Velge, director of Product Group Steel, and Raymond Velge, commercial manager of the Bekaert Group.

P. Rydbeck, managing director of Product Group Steel, R. Colpaert, marketing director, Product Group Steel, and L. M. Sheppard, vice president, marketing, Bekaert North American Division.

R. Van Overbeke, Belgian Consul General, will be a member of the official party.

Leading U.S. auto tire designers and manufacturers will be guests of Bekaert for the dedication, plant tour and barbecue to follow.

The dedication ceremony and guided plant tours are open to the public. Tours, scheduled to begin at noon, will be followed by a barbecue luncheon on the plant grounds to which the public also is invited.

Bekaert actually has been in operation for several months following groundbreaking in May 1969, on a 133,000 square foot manufacturing installation and an administration building. Last November the company announced plans for an addition for a steel cord production unit expected to be ready for operation in 1972.

The Rome plant produces steel cord for use in the casing of vehicle tires.

The European corporation is the world's second largest producer of drawn steel wire products and has factories in eight countries. It has agencies and sales offices on five continents and employs some 10,000 people.

Founded in 1890, Bekaert has been in steel wire manufacturing for 90 years and has been shipping steel wire and steel wire products to the United States for more than 40 years.

Its products range from steel surgical sutures to springs and heavy duty fences, from hair pins and mousetraps to wire for bridges, roads and tires.

The modern 128,000-square-foot plant which is situated on a 40-acre site, off the East Rome interchange, is Bekaert's first manufacturing venture in the United States. Designed by Lockwood Greene Engineers, Inc., engineering and architectural firm, of Atlanta, Ga., and constructed by Fite & Warmath, Milan, Tenn., general contractor, it will have an initial output of approximately 1,500 tons a month. Producing wire for the rubber industry to a growing market in the South, the plant was designed for easy expansion when additional production is needed.

Public exhibit opens seminar on drug abuse

A special public exhibit van for education on the widespread problem and will be parked behind Krammert Center on the Berry College campus Monday in connection with the drug abuse seminar series opening that night.

The trailer will be brought to Berry under the auspices of the Floyd County Pharmaceutical Association. It will be open all day for the public, and Rome police will be on hand to answer questions.

The public is invited to the beginning-seminar at 7:30 p.m. in the Krammert Center.

Key speaker for the initial program in the public series will be Dr. Joseph A. Hertel, medical director of Atlanta's Cabbage Town Clinic, a psychotherapy program for the indigent, and the Hippie Clinic in Atlanta.

Floyd Junior College sets test dates

Floyd Junior College will administer the Scholastic Aptitude Test of the College Entrance Examination Board Friday and Saturday, Sept. 13-14, according to Harold Boyd, director of student affairs.

The test will be given in the Metro Building on East Third Avenue.

The test is being offered to applicants of Floyd Junior College who have not taken it previously, Boyd explained. Completion of the test is one of the requirements for admission to Floyd.

Boyd said that test scores will be used for guidance purposes.

The test will be offered at 3:30 p.m., Friday, Sept. 16, and again at 3 p.m., Saturday, Sept. 17.

The test fee, which must be paid at the time the test is taken, is 60 cents.

Registration for fall quarter classes, which begin Sept. 30, will be held Sept. 28. Students who are interested in attending Floyd should secure an application for the fall term either by calling 259-3391 or visiting their SAT scores and high school transcript, to the Office of Admissions. Application forms can be obtained from the Office of Admissions in the Metro Building on East Third Avenue. Additional information can be obtained by calling 259-3391.

Four juveniles in cemetery

Police this morning re-arrested four juveniles, whose investigation into Labor Day vandalism at Hill Cemetery, which resulted in the arrest of historic monuments being broken or defaced, led to the offering of reward of Rome's City Commission for information leading to the arrest and conviction of vandals.

Dets. Bill Kinney, Farris and C. R. Eldredge, after intensive investigation and interrogations of four sources, four
Two on junior college staff awarded degrees

Two assistant professors at Floyd Junior College received doctoral degrees this summer. Daniel C. Pantaleo, assistant professor of chemistry, received the Ph. D. degree in chemistry from Emory University, while Richard C. Hays, assistant professor of physics, received the Ph. D. degree in physics from Auburn University.

Dr. Pantaleo concentrated his research on the synthesis and characterization of new inorganic compounds and X-ray structure analysis of these compounds. A native of Bronx, N.Y., Dr. Pantaleo received the B.S. degree in chemistry from Manhattan College. While at Emory on a National Science Foundation Fellowship, he was research director for the American Chemical Society’s Project Catalyst, and president of the Alpha Chemical Society. He is also a member of the Society of Sigma Xi, a research honor society, and the American Chemical Society, Division of Inorganic Chemistry. Dr. Hays resides in the Kingston Hills Apartments. Dr. Hays’ research was in the field of Lattice Dynamics.

He is a native of Atlanta and a graduate of Georgia State College where he received the B.S. degree in physics. Dr. Hays received the M.S. degree in physics from the University of North Carolina. He has published articles in scientific journals.

For four years, Dr. Hays was assistant professor of physics at Clinch Valley College. He is a member of the American Physical Society.

Mr. and Mrs. H. C. Quinton, 215 Burnett Ferry Road will observe their 50th wedding anniversary Tuesday. The children of the couple will honor their parents with an open house today at the residence of a son, Mr. and Mrs. Gene Quinton, Shadow Lane, Horseleg Creek Road. The couple has two daughters, Mrs. Ralph Crane and Mrs. Robert Bishop, and two sons, Harold and Gene Quinton. Mrs. Quinton is the former Nola Whitfield.

I appreciate the vote of confidence you the people of Floyd County gave me in the Democratic Primary. The result was the effort of many.

THANK YOU VERY MUCH!

Floyd junior college prepares for opening session Sept. 30.

Monday will mark the beginning of an important week for Floyd Junior College as the university prepares for the opening of classes Sept. 30.

The schedule for the coming week includes the first faculty meeting, social events, and the opening of two dormitories.

Floyd's first faculty meeting will be held at 9 a.m. Monday in the Metro Building, located at 1034 Third Avenue, temporary location of the college after completion of permanent facilities scheduled to open on U.S. Highway 27 about six miles south of Rome.

Dean Wesby Walrviner will introduce the faculty. Members of the board of trustees include division director of Science-Dr. Jim Hall, chairman and assistant professor of history; Barbara Clark, assistant professor of English; William George Pullen, assistant professor of Social Science; James F. Cook, Jr., assistant professor of P.E.; and assistant professor of Biology; Emory H. Merryman, associate professor; Dr. Daniel Charles Farnsworth, assistant professor of English; Myrtle Jones, assistant professor of English; Michael L. Holland, assistant professor of French; and assistant professor of Education; and Ann Howell, instructor in Education and reading specialist. Division of Natural Science and Mathematics—Charles David Cook, acting chairman.

Miss Gaston gets master's

Miss Patricia Ann Gaston, daughter of Mr. and Mrs. Jack B. Gaston, has received the Master of Science degree from the University of Tennessee in the field of Health and Physical Education. Her thesis topic was a comparison of grip strength and wrist strength of selected women golfers.

Miss Gaston is a graduate of Peppery High School, and Berry College, and was a graduate student in the Knoxville City Schools. She holds professional membership in the National Education Association, American Association of Health, Physical, Education, and Recreation, and Phi Eta Tau.

REACT aids travelers

Approximately 1,000 people took advantage of Floyd County hospitality in the Labor Day weekend and the people were treated to the REACT (Rural and Emergency Transport) service.

Travelers from out of state were among those who stopped by for coffee and breakfast. The REACT service is planned for the community. The Seven Hills REACT Team, located at the Roadside Park on U.S. Highway 27 north of Rome, serves hot breakfast items and other refreshments.

The REACT monitors handled an emergency, and motorists received assistance on Channel 9 of the Citizens Radio Service. The Seven Hills REACT Team provides a 24-hour service for this purpose.

Schools' food service group sets meeting

The Floyd County Schools' Food Service Association will hold its regular meeting for the 1972-73 school year Wednesday, Sept. 21, at the Floyd County Civic Center. All staff members are expected to attend.

During the meeting, the Floyd County School System is urged to be present.

ANOTHER GOOD REASON TO SAVE AT HOME FEDERAL!
Rome visit

Dr. George L. Simpson, Jr., chancellor of the Board of Regents of the University System of Georgia, will be in Rome Monday to visit Floyd Junior College.

Floyd is the newest unit of the University System's network of 27 state colleges and universities. Dr. Simpson will be accompanied on his visit by Dr. Harold F. Robinson, vice chancellor, and Dr. Haskin R. Pounds, assistant chancellor.

The three will be guests at a buffet luncheon the same day hosted by the Special Events and Development Industries Committee of the Rome Area Chamber of Commerce in honor of the Floyd Junior College faculty. The luncheon will be held in the Rome Civic Center, followed by a tour of the college's campus on of 155 acres where construction of four initial college buildings is underway.

The formal program for the luncheon will be informal, with John Gates, president of the Chamber, speaking Rome attorney J. D. Martin, who served as chairman of a committee which coordinated plans for the junior college, will discuss briefly the decision to make Rome the new institution according to Carl Collins, executive vice president of the Chamber.

Prior to the luncheon Monday the University System officials will meet with the college faculty and the college's board of trustees in the Metro Building on East Third Avenue. Another University System official, Dr. Mario Gorga, will be in Rome in charge of research, will visit the school Tuesday.

The college has been in operation this week in a series of pre-planning workshops and in meetings with local civic leaders. Pre-planning meetings conclude Wednesday. Throughout the following week, students will meet with the faculty advisors to plan their courses of study for the fall quarter. Classes begin Sept. 30.

Dr. Simpson will visit the fall quarter classes will meet in the Metro Building and in portions of the new educational building of the First Baptist Church while construction of permanent facilities is completed on the campus.

Graduation exercises for Coosa Valley Tech will be held on Sept. 30 at 2 p.m. in the First Baptist Church. Two hundred seniors will receive diplomas in the areas of study in both day and evening classes.

President Nixon

He said he hoped Nixon would come to Rome to campaign for him.

Said also that the two Democratic candidates spent hundreds of thousands of dollars on television advertising in the area. Nixon spent $20,000 in the area.

In answer to a question about the money, he said it was necessary for the campaign and that he had hoped Maddox "would be in the vanguard of the welcoming party."
Floyd college registration is scheduled

Registration for the fall quarter of Floyd Junior College will be held Monday and Tuesday, with classes beginning Wednesday.

Those students who are able to register during the day will register on Monday. Students who cannot register during the day will register Tuesday night.

The time schedule for registration Monday is as follows: students whose last names begin with the letters A to B at 8 a.m., C to D at 9 a.m., E to F at 10 a.m., G to H at 11 a.m., I to J at 12 noon; P to Q at 1 p.m., R to S at 2 p.m., and T to Z at 3 p.m. Tuesday, students whose last names begin with the letters A to M will register at 8 a.m. and those whose last names begin with the letters N to Z at 7 p.m.

Students who are unable to register at any of these hours can register from 1 to 3 p.m. on Tuesday.

According to Harold Boyd, director of student affairs, registration both days will be held on the second floor of the First Methodist Church's educational building on East Third Avenue. Applicants should use the East Third Avenue entrance to the building.

Boyd emphasized that fees must be paid at registration. Students' fees are determined by the number of credit hours for which he registers. A full-time student—one who takes 12 or more credit hours—will pay an $80 matriculation fee. A part-time student—one who enrolls for less than 12 credit hours—will pay $7 for each credit hour. All students taking six or more credit hours of work will pay a $10 student activity fee.

Out-of-state residents will be charged a quarterly tuition fee of $80 for full-time study of $5 per credit hour for part-time enrollment. Boyd said after paying fees, students:

Still time for county slogan

With the Floyd County Emblem Contest deadline only one month away, entries are beginning to arrive at the Cooperative Extension Service, Room 206, Courthouse Annex.

Individuals entering the competition are seeking several prizes. The most important of which is a Robert Redden original of a painting of home or farm. Among other prizes are a $1,000 radio and a $250 cash award.

The county extension agent will announce the winner of the contest, which will be held on November 1.

Euharlee plant plans new unit

The Georgia Power Company will add an 850,000-kilowatt fourth unit to its Euharlee generating station under construction near Carterville.

President Edwin J. Hatch, who made the announcement today, said the unit will give Euharlee a capacity of 3,100,000 kilowatts.

The new unit is the fourth major addition to Georgia Power's generating system announced in the past six months. The others are an 850,000-kilowatt third unit at Euharlee, an 800,000-kilowatt second unit at the Edwin J. Hatch Nuclear Plant under construction near Baxley and a 24,000-kilowatt hydroelectric project at Laurens Shoals near Eatonton and Sparta.

Ample Power

Hatch said that when the Euharlee plant is completed, its generating capacity will be equal to that of all the power plants on Georgia Power's lines only six years ago.

Construction on the fourth unit at Euharlee is scheduled to begin in the spring of 1972. Completion is scheduled for the spring of 1973. The first two units, of 700,000-kilowatt capacity each, are under construction. Work on the third unit is scheduled to begin in the spring of 1972 and be completed in the fall of 1972.

'Youth Asks Why' program topic Friday

"Youth Asks Why" is the theme of the fall meeting of the Georgia Committee on Children and Youth to be held Friday at the Sheraton Biltmore Hotel in Atlanta. Hon. Frank Hanazik, director of the Youth Activities Division, White House Conference on Children and Youth, will be the keynote speaker.

Hanazik, a native of Los Angeles and a student at the University of Virginia School of Law, holds a master's degree in government and foreign affairs with special emphasis on Soviet and Eastern European foreign policy. He is a former intelligence officer in the Navy.

Appearing on the program with Hanazik will be Bob Brennen, new director of the Atlanta television station WSB. Adams, Student Health Service, Emory University; Dr. Donald Spillie, Executive Director of Metropolitan Atlanta Mental Health Association; and E. Edwards, Assistant Superintendent of schools; Rev. Marion Pearson, East Point Methodist Church; and J. M. Stanford, East Point, is program chairman.

The meeting is open to all interested youth and adults. Registration information may be obtained from Jack G. Thomas, State Education Annex, 156 Trinity Avenue, S.W., Atlanta 30303 or at the registration desk in the hotel beginning at 9 a.m. on Sept. 25.

SANDERS

(Cont. from page 3A)

Dekalb, which Sanders had taken by more than 1,000 votes, went for Carter in the runoff by almost 2,000.

Gov. Lester Maddox, who won a primary majority over incumbent George T. Smith and two other challengers for the nomination for lieutenant governor, said Carter won because he ran a Maddox-type campaign. Regardless of whether it was the determining factor, Carter did display some of the Maddox style.

He wooed voters who cast their ballots for Maddox in 1966 and for George Wallace in the 1968 campaign. He frequently had praise for things that Maddox has done as governor. And he tactfully sought out people in the way that was successful for Maddox four years ago.

Maddox said that both candidates had sought his endorsement in the runoff, but he declined to bolster it on either campaign.

Carter said Wednesday night, however, that Maddox telephoned him after his victory was apparent to say, "We're both working together for the next four years after beating the Republicans."

Carter acknowledged that the two-week runoff campaign had been a difficult one for both parties. He said there must be a binding together of the different elements of the Democratic party—those who have won and those who have lost.

He said party unity is necessary to the face of growing public opinion strength in Georgia and that his supporters "still face many powerful elements."

He said he expected to be a formidable opponent and pledged to campaign as aggressively against him as he did against Sanders.

Carter said that 30 minutes before speaking to his supporters he had received a telephone call from Sanders:

"He recognizes that the people of Georgia have spoken," said Carter. "I know how hard it is to lose," said Carter. "I lost four years ago."

Carter said he planned to take only a week off before again hitting the campaign trail. Carter acknowledged that the campaign was superheated and filled with charges and countercharges that hurt feelings and
drove one-time political allies apart.

"I have no apologies to make for the fight," said Carter, whose attractive wife, Roslyn, stood beside him.

"Carl Sanderson fought back as hard as I fought him," Carter said.

"It seems apparent that those people who voted for Maddox have been successful."

FLOYD

(Cont. from page 3A)

The college's first classes will convene at 8 a.m. Wednesday. Classes are scheduled to meet from 9 to 12:30 p.m. and 1 to 4 p.m. Classes will meet for the first time on Wednesday, while classes scheduled to meet from 9 to 12:30 p.m. on Tuesdays and Thursdays will meet for the first time on Thursday. Classes will be held in the Metro Building and the church educational building during the first quarter.

EURABLES

(Cont. from page 3A)

A circular cooling system, which uses water for the evaporator, will be discharges into the nearby Etowah River.

The towers will be approximately 600 feet tall and 300 feet wide and will cost $4 million each.

Hatch said the company's design engineers also will continue to place emphasis on clean air and the modern, efficient electrostatic precipitators available.

The precipitators will remove up to 95 percent of all fly ash particles from the plant's chimneys before it is sent to the atmosphere. The two chimneys—one is nearly completed—will be 1,000 feet tall. Each chimney will be equipped with two boilers. Because of their height, the chimneys will assure that emissions from the towers will disperse into the air at altitudes high enough to dissipate before they can settle to earth.

Besides the modern environmental controls, Hatch added, there will be a "Georgia Power will install the first coal-burning system in the nation to provide unloading of coal cars while in motion on straight tracks."

Alexander Graham Bell never lost his interest in the field of education. He planned to open a school."
Floyd Junior College Adds Three to Staff

Special to The Atlanta Journal

ROME, Ga. — The Board of Regents of the University System of Georgia has approved appointments of an assistant director of student affairs and two additional instructors to the Floyd Junior College staff.

Gary L. Branch, former dean of men and director of student activities at Abraham Baldwin College in Tifton, was named assistant director of student affairs. Thomas R. Berry of Anderson, Ind., was appointed instructor in business administration, Mrs. Ann S. Spears, a teacher at West Rome High School, was named part time instructor in English.

Branch received the B.S. degree in social studies and the M.A. degree in counseling and guidance from the University of Alabama. Prior to going to Tifton, Branch was counselor in the office of the dean of men at the University of Georgia.

His professional and honorary memberships include Kappa Delta Pi, Phi Delta Kappa, the Student Education Assn., Omicron Delta Kappa, and the Southern College Personnel Association and the National Association of Student Personnel Administrators. He was president of the charter group of the University of Alabama Student Rehabilitation Counselors Association.

Branch was selected to be named in the 1970 edition of "Outstanding Young Men in America."

Berry comes to Floyd from the General Motors Corp. in Anderson, Ind., where he was production manager.

HE RECEIVED the bachelor of business administration and the master of business administration degrees from the University of Georgia. While an undergraduate at the University, Berry was recognized at Honor Day for his scholastic achievements.

Mrs. Spears received the B.A. degree in English from Berry College from which she graduated summa cum laude. She received the M.A. degree in English from West Georgia College.
From A to Z they register for fall classes at Junior College

Hundreds of men and women, boys and girls began their college careers in Rome today with registration at the Education Building, First United Methodist Church, on East Third Avenue, temporarily used by Floyd Junior College. But the college itself also began a career as it marked the first registration in its history. Permanent buildings and facilities are under construction now, south of Rome, on U.S. Highway 27. The registration is scheduled to extend through Tuesday, and classes are scheduled to begin Wednesday.
Historic opening of Floyd Junior College scheduled

Classes meet temporarily in First Methodist building

The fall quarter at Floyd Junior College begins Wednesday when classes convene for the first time.

Classes are scheduled to meet in the three-story Building on the north corner of Third Avenue and 26th Street. Classrooms, laboratories, and the bookstore are on the lower floor, while administrative and faculty offices are on the upper floor. Additional classrooms are in the basement and fourth floor, where the library is located. Some classes will meet in portions of the educational building of the Methodist Church.

Floyd's corps of instruction numbers 21, plus one librarian. All faculty members have attained a minimum of the Master's degree in their teaching disciplines. Most have completed courses beyond the Master's degree. Several have earned Doctoral degrees.

The junior college's academic program is designed for students who plan to transfer to senior colleges and universities after completing their first year at Floyd. It is also designed for students who plan to enter specific employment fields after two years. Floyd will offer the Associate degree in Arts and Sciences.

I most widely abused 'drug'

by John Lowery

M ost widely abused of all illegal drugs is marijuana, according to Dr. George Lowery, a psychiatrist at the Rome Journal. Dr. Lowery estimates that about 10% of the population use marijuana on a regular basis. He believes that marijuana use is increasing among young people, particularly those in high school and college. Dr. Lowery cautions that marijuana use can lead to other problems, such as increased tolerance to other drugs and impaired judgment. He also warns that marijuana use can cause respiratory problems, especially among heavy users. Dr. Lowery recommends that schools and communities educate their citizens about the risks associated with marijuana use.

Suit favors second term for governor

By United Press International

D eputy Governor E. Moseley Monday morning after his one-sided runoff victory over Carl Sanders for the Democratic gubernatorial nomination. With his Republican opponent, Hal Suit, said he favored success for the governor. Suit spent part of the day in a closed-door meeting at Atlanta's (WNOF) radio station, where he talked about his goals for the state. He said he would work to improve education, increase employment, and make Georgia a more attractive place to live. Suit also talked about his plans to work with the legislature to pass important legislation. He said he would work hard to make Georgia a better state for all of its citizens.

Second robbery trial scheduled

The trial of a second man charged with the robbery of a small grocery store in Everetta Springs, July 21, was scheduled to begin this afternoon.
Junior college enrollment swells

More than 500 students have enrolled in Floyd Junior College for the first quarter of the college's first academic year. Enrollment for the fall quarter totaled 363 students, according to Harold Boyd, director of Student Affairs.

Floyd President David B. McCorkle indicated that college officials are "very pleased" with fall quarter enrollment figures. "We believe that the enrollment reflects a very favorable response to the college from the community," he said. "This response is the result of the efforts of many individuals, I hope that Mr. Maddox and members of the Junior College Committee are as pleased as we are."

Rome Attorney J. D. Maddox spearheaded a drive by a group of community and civic leaders composing the Junior College Committee to establish Floyd Junior College.

In commenting on the enrollment, Maddox said that the achievement is "due in large part to the college's excellent faculty and staff and the programs they have developed."

"That the enrollment is as high as it is, even though classes must meet for a while in temporary facilities, indicates the real need for a junior college," he continued. "The entire community is very pleased with Floyd's success."

Most of the students enrolled in Floyd are from Floyd County. An analysis of enrollment figures by county shows that 624 students are from Floyd County; 68 from Polk; 22 from Chattooga; 13 from Bartow; five from Gordon; and three from Haralson.

Of the 496 students composing the freshman class, 311 are beginning their freshman year and 185 are transfer students from other colleges. The remaining 49 students are sophomores.

East Rome High School led the list of schools sending graduates to Floyd. A breakdown of enrollment figures by high school shows that 91 Floyd students are graduates of East Rome; 84 of West Rome High School; 51 of Pepperell High School; 50 of Coosa High School; 35 of Cedar Town School; 34 of Armuchee High School; 12 of Calhoun High School; five of Cass High School; four of Trion High School; three of Cartersville High School; and three of Buchanan High School. The remaining students are graduates of other high schools or have not graduated from high school graduation equivalency certificates.

According to Boyd, there is more than a two-to-one ratio of single men to single women at Floyd this fall. Married men also outnumber married women, he said. There are 272 single males enrolled, compared to 123 single females, and 89 married men to 99 married women.

Classes are meeting in the Metro Building on the Educational Building of the First United Methodist Church. However, the construction of college facilities on U.S. Highway 27 south of Rome is nearing completion.

The college was to accept one building—a maintenance facility—not today. An administration building and classroom building are expected to be ready for occupancy by the beginning of the winter quarter.

Applications for the winter quarter are being accepted now, said Boyd. Application forms are available from the college.

Boyd said that students wishing to enroll for the winter quarter should submit applications as soon as possible. The winter quarter begins Jan. 4, 1970.

"Floyd is a unit of the University System of Georgia."
Floyd College plans winter registration

Applications for admission to Floyd Junior College's winter quarter, which will begin January 5, 1971, are now being accepted.

According to Harold Boyd, director of student affairs, those who are interested in enrolling in the winter quarter should submit application forms as soon as possible. Forms can be secured from the college's Office of Admission or from area high school counselors.

Registration for the winter quarter will be held January 4. The winter quarter concludes March 17, 1971.

The basic requirements for admission to Floyd are high school graduation or the equivalent and completion of the Scholastic Aptitude Test of the College Entrance Examination Board.

Applications should submit application forms, grades on the Scholastic Aptitude Test, and high school transcripts to the Administration Office, Boyd said.

Persons who have not graduated from high school can gain admission to Floyd through satisfactory performance on examinations administered or prescribed by the college.

Applicants who wish to transfer to Floyd from other colleges should submit an official transcript from each college previously attended, Boyd said.

During the winter quarter, just as during the present fall quarter, classes will meet from 9 a.m. to 12:30 p.m. daily. A schedule of courses to be offered during the winter quarter will be announced at a later date.

Applications for full-time students will remain the same as fall quarter: $80 for matriculation plus $40 for student activities.

Persons wishing further information should contact the Office of Administrations, Floyd Junior College, Rome, Ga. 30161. Telephone 235-3391.

Floyd is a unit of the University System of Georgia.

Snow flurries?

Prospect for snowflakes are out for the Rome area tonight but temperatures are expected to drop to below zero levels early Monday morning with winds gusting 15 to 20 mph in the area.

The Western Saddle Club meet Wednesday at 7:30 p.m. at the clubhouse on the Alabama Road.

The regular meeting of the Rome-Floyd County Planning Commission will be held on Thursday, Nov. 5, at 3:30 p.m. in the Cossa Village Area Planning and Development Commission Conference Room on the second floor of the Ledbetter Building, 4 Broad Street.

The West End School Fall Festival will be held Saturday, Nov. 7, at the school from 6:30 to 8:30 p.m. Supper will be served at the cafeteria from 6:30 to 7:30, and Mr. and Mrs. Jim Bishop are serving as chairman of the project.

"Taiwan: Unfinished Revolution" will be the topic when the Rev. Lee Robinson speaks at 6 p.m. Sunday in the sanctuary of the First Baptist Church of Rome. Presently a missionary on tour from Taiwan, he is associate of the First Baptist Church China Missionary Society and director of the McCombs Junior College World Missions Institute at Dothan, Ala.

McCombs Junior College World Missions Institute at Dothan Baptist Theological Seminary

A special luncheon and program for students and faculty at the Rome Junior College will be held Tuesday at 1 p.m. in the college auditorium. Miss Anna Harlow of the Junior College will give the address. The public is invited.

freaky, freaky fields,
Floyd College gets Georgia history works

Distinguished Historian E. Merton Coulter, editor of the "Georgia Historical Quarterly" and Regents Emeritus Professor of History at the University of Georgia, has presented the Floyd Junior College Library a collection of books, articles and documents dealing with Georgia history.

Dr. Coulter, a founder and past president of the Southern Historical Association, also donated copies of the minutes of the first, second, and third annual proceedings of the Georgia Historical Association, organized in 1917, as well as copies of articles about historical events in Georgia.

"This gift is a significant addition to our collection," said Floyd Librarian H. W. Whitlow.

"We are honored that a person of Dr. Coulter's distinction selected Floyd as the recipient of his gift."

Dr. Coulter is one of the South's most distinguished historians. His collection of Georgiana is renowned throughout the southeast, and as such, his gift represents a valuable addition to the holdings of the college.

A professor at the University of Georgia for 30 years, Dr. Coulter is a former head of the University's history department. He also has held professorships at Harvard and the University of Texas. He is a member of the Georgia Conservancy and is a leader in ecological movements in the state.

12 Rome area Berry students on honor list
OFFICERS INSTALLED BY FLOYD JUNIOR COLLEGE WOMEN'S CLUB

These are the officers who will serve for 1970-71 in the newly organized Floyd Junior College Women's Club. They are from left, Mrs. Jerry Shelton, president; Mrs. William Morris, vice-president; Mrs. Thomas Melton, recording secretary; and Mrs. Harold Pressley, corresponding secretary. Mrs. Thomas Berry, treasurer, is not pictured.

Junior College Women's Club installs heads

Officers of the recently organized Floyd Junior College Women's Club were installed at the club's first official meeting held at the home of Mrs. Milton Ready, 17 Conway Place.

The officers include Mrs. Jerry Shelton, president; Mrs. William Morris, vice president; Mrs. Thomas Melton, recording secretary; Mrs. Harold Pressley, corresponding secretary; and Mrs. Thomas Berry, treasurer.

The purpose of the club is to provide an opportunity for members not only to meet socially but also to undertake projects to benefit the college.

At the club's first meeting, members adopted a constitution and made plans for a Christmas party. Miss Jean Morris also presented a program on Christmas decorations.

Other members present were Mrs. Harold Boyd, Mrs. Gary Branch, Mrs. Philip Dillard, Mrs. David McCorkle, Mrs. Emory Merryman, Mrs. George Pullen and Mrs. Wesley Walraven.

Rooster Boosters welcome new members

The Rome Tractor Company was host this past week at the November meeting of the Rooster Booster Breakfast Club. The Chamber welcomed three newcomers to Rome. Shown here are (left to right), Joe Tarpley and Ken Singleton together with newcomers William Adams and Daniel’s Funeral Home: Millon Ready, with the Floyd County Junior College; Dr. Bannister Harbin, associated with the Harbin Clinic.

American visa policy against East continues

BERLIN (AP) - An American spokesman said Saturday the United States will continue to restrict the issuance of visas to East Germans in retaliation for the jailing of Mark Huesey, a 21-year-old Pomona College Junior.

He said the "unsatisfactory" reduction of Huesey's sentence from seven to five years will not change the visa policy.

An East German court Friday reduced from seven to five years the sentence imposed on Huesey for criticizing the East German government. It acted on an appeal made by Huesey's East Berlin lawyer, Wolfgang Vogel.

"We are not satisfied with this," an American official said. "The sentence still is unjust.

"Visas to East Germans still will be restricted." The United States placed restrictions on the issuance of visas to East Germans after Huesey's conviction Sept. 25.

Natural gas rate hike proposal drawing fire

ATLANTA (UPI) - Rep. Dorsey Matthews of Newport, chairman of the House Agriculture Committee, said Saturday he will not ask the General Assembly to legislate the Atlanta Gas Light Company's proposed $15 million natural gas rate increase.

Matthews and Senate Agriculture Committee member, Sam P. McGill of Washington said they recognize the gas company's need for additional revenue but termed the recent proposal unacceptable.

Matthews, who thinks it is unfair to farmers, housewives and the process industry in the state said: "I don't think the Public Service Commission will grant the increase without the General Assembly opposed to it and we're going to take it to the people on it.

The Public Service Commission opened hearings on the rate increase Wednesday, but held it over until next month.

Guinea claims another try at invasion

ABIDJAN: Ivory Coast (UPI) - Conakry Radio said Saturday Portuguese mercenaries had invaded Guinea for the fourth time in less than a week.

The Voice of the Revolution radio said the latest invasion took place near Kounda where "Portuguese mercenaries penetrated into Guinean territory." The radio said the
Retirement program okayed at hospital

Floyd Hospital Authority Tuesday approved the six-month trial period for running the hospital's $62,000 retirement program. The program, which was proposed by the hospital's management, is part of the hospital's efforts to attract and retain qualified staff.

The retirement program will be offered to all employees who have worked at the hospital for at least six months. Employees will be able to choose from two different retirement plans: a defined benefit plan and a defined contribution plan. The hospital will match 50% of employee contributions up to 6% of their salary.

The defined benefit plan will provide employees with a set amount of retirement income based on their years of service and salary contributions. The defined contribution plan will allow employees to contribute a portion of their salary to a personal account, which will be invested and managed by the hospital.

The hospital management expects the retirement program to attract more qualified candidates to the hospital and to retain current employees. The program will be reviewed at the end of the six-month trial period to determine its effectiveness and whether it should be made permanent.

The retirement program is part of the hospital's efforts to attract and retain qualified staff.
Junior College sets move to new campus

Floyd Junior College will move next week from the Metro Building in downtown Rome to its new facilities on the 233-acre campus on U. S. Highway 27 South.

All college offices and operations are expected to be relocated on the campus by Monday, December 21.

Three offices will officially move Monday, December 14: the President’s Office, the Public Information Office and the Student Affairs Office. Others, including those of the Dean and the faculty, will move the latter part of the week, after the last day of fall quarter final examinations December 18.

Persons interested in contacting the college during the coming week will be able to do so at either location. However, after Monday, December 21, all telephones to the college in the Metro Building will be disconnected. The new telephone number to the campus is 235-5511.

During construction of Floyd’s initial buildings, the college has been housed in the Metro Building, with some classes also being held in the Educational Building of the First United Methodist Church.

Dr. David B. McCorkle, Floyd president, today expressed his “deep appreciation” to members of the church for “so generously providing” their facilities for the college’s use.

“Part of the reason Floyd Junior College enjoyed a successful opening and first quarter is the fact that we had the use of the church’s educational building for some of our classes,” he said.
