In short, if the Floyd County public schools are closed, Floyd College’s main campus will be closed. If the appropriate neighboring public schools are closed, the off-campus centers will be closed. The decision to close will be made by the President after various consultations. If a center is closed, the message will be distributed via the Internet, the College sign, area radio stations, and selected telephone calls and messages. In general, it will be each individual's responsibility to seek such information using at least one reliable source.

In addition, years of service and retirements will be recognized. The Cabinet reviewed previous awards presented in four categories from 1993 through 1998. They are as follows:

The Cabinet discussed a request from John Atcheson, a former student, to change “W-F’s” recorded on his transcript to “W’s” so that he may return to school. Draft Policies for Waiver of Technology Fee and Online Activity at Floyd College
The Cabinet reviewed the draft policies which were submitted following revisions recommended by the Cabinet in their April meeting and made by the Computer Committee.

The Cabinet appointed an Ad Hoc Committee as follows to develop a procedure for implementation of the policy concerning Waivers of the Technology Fee

Lynn Bacon, Chair  
Dondra Casey  
Barry Greeson  
Jason McFry  
Sherry New  
Karen Porter  
Michelle Stephens  
Marsha Welch

President Cundiff will notify the Committee members of their appointment.

The policies will be made a part of the Faculty/Staff and Student Handbooks.
Core Curriculum (for Staff Employees)
The Cabinet discussed the need to apprise staff employees of the Core Curriculum. The Cabinet decided that a more appropriate title would be "Staff Development Core Competencies for Employment," as it is a listing of courses and activities in which all staff employees should participate or at least be familiar. It was determined that this is not being made a part of employee training and orientation and is not being included in the evaluation process.

Dr. Cundiff then led a discussion of a revamped orientation program for staff employees, to include organizational culture, values, and customer service (both internal and with students.)

Student Request for Credit on Laptop Fees – Sherry Allen
The Cabinet reviewed the request which was based upon the student's inability to access the Internet due to problems with both the laptop modem and with Earthlink. It was decided that Dr. Lord would contact Beth Harrison, the instructor, as to further details. If Ms. Harrison verifies the problem, Pat McCord recommended a one-half credit towards Summer Semester. It was also recommended that the Help Desk work more efficiently with students on these types of problems.

There being no further business, the meeting was adjourned at 11:00 a.m.

Respectfully submitted,

Policy on Privacy of Online Activity at Floyd College
(Revised and approved by the President's Cabinet on 5-3-99)

This policy governs the use of Floyd College computer resources by students, faculty, staff, and other persons authorized access to these facilities by the college.

It is recognized that the use of networked computer resources, including but not limited to electronic mail, the World Wide Web, newsgroups, mailing lists, and chat rooms, are an important part of modern higher education, and are especially vital to the operations of Floyd College. Students, faculty, and staff members need and are encouraged to have access to these resources to assist them in the teaching and learning process.

Use of these resources should be restricted to institutional pursuits, to the greatest extent possible. It is recognized that the free and open exchange of ideas will often lead to communications that are not strictly related to a user's work at the college, and the college does not wish to constrain this form of communication, so long as the primary use of the college's computer and network resources are for legitimate institutional purposes. Further, the college does not wish to stifle communications between colleagues by intrusive monitoring of communications or online activities of users. Still, it is recognized that the college's networked resources can be inappropriately exploited for nonacademic purposes, and that the college has a responsibility to the taxpayers of this state to see that these resources are used ethically and efficiently.

To this end, the college may monitor, inspect, or review the online activity of any user when there is a reasonable suspicion that the user may be utilizing college online resources in an inappropriate manner. For the purpose of this policy, an "inappropriate" use would be any use that violated any of the state policies of Floyd college for online use, any use that violated or furthered a violation of state or federal law, or any activity that was clearly a part of a personal or corporate business venture not associated with authorized college activities, and for the purpose of personal gain.

However, except as noted below, no user account will be subject to any such monitoring, inspection, or review unless the user whose account is to be examined is given 24 hours notice of the intent to undertake such monitoring, inspection, or review, and has access to his account and online files during that notice period. Further, the user will be advised at the time of such notice the nature of the grounds that have given rise to this inspection. The user will be further advised when such monitoring, inspection, or review is concluded, and normal operations have resumed. If the monitoring, inspection, or review extends more than 10 calendar days, and the user continues to have access to his online accounts, the user will again be notified of the continued monitoring.

There may, from time to time, come exigent circumstances that require immediate inspection of a user's electronic files. If two or more members of the President's Cabinet (the college President may or may not be one of the two members) concur that such exigent circumstances exist, then a user's electronic files can be inspected without prior notice. In such a case, the user will be notified by electronic mail,
telephone, or in person of the inspection. This notification will occur at the same time as the inspection. If reasonable efforts to contact the user are unsuccessful, then the inspection may proceed anyway.

If the monitoring, inspection, or review of any user’s online account is pursuant to a criminal investigation by a law enforcement agency, then applicable state and federal laws may supersede this policy.

Alleged violations of this policy on the part of a faculty or staff member will be addressed through the employee’s supervisor and normal disciplinary procedures. Alleged violations of this policy by a Floyd College student will be referred to the Director of Student Life for review.
The President's Cabinet met at 9:00 a.m. on Tuesday, June 8, 1999 in the President's Conference Room. Present were: President's Lynn Cundiff, VP Joan Lord, VP Penny Wills; VP Patrick McCord; PI Sandy Briscar; AO Judy Taylor, and TC Dana Shipp.

President Cundiff welcomed the Cabinet members.

**Fair Labor Association**
Dr. Cundiff presented information in a letter asking the College to join the association which monitors code compliance of "sweatshop" labor. Dr. Cundiff recommended that the College not join. The Cabinet agreed with the president.

**IPEDS**
The Cabinet reviewed a request from the Department of Education for assignment of a responsible individual for completion of a survey regarding "Student Crisis in Financial Aid Information." Only the assigned person, who should be familiar with the annual IPEDS survey, will access this. It was decided that, due to the absence of an Institutional Effectiveness Director, an interim would be named. Marsha Welch was recommended and accepted by the Cabinet.

**Open Records Act Amendments: Open Records Officer**
The Cabinet discussed the amendments to the Open Records Act as outlined in the memorandum from Dr. Art Dunning. The letter requested that an institutional Open Records Officer be named and that they attend an informational meeting in the near future apprising them of the Act in more detail. Dr. Cundiff recommended that Sandy Briscar be the interim representative and that the responsibility would lie with the Human Resources Director, when named. Dr. Cundiff asked Barbara Griffith to submit a letter to Dr. Dunning with the information.

**Tuition Remission – Summer Semester**
Dr. Cundiff presented a recommendation by the Tuition Remission Committee that tuition remission be approved for Janis Pearson and Lillian Long for Summer Semester.

If there are any monies available for tuition to other institutions, it will be reported to the Committee by the end of the week.

**Policy for Usage of Lakeview Building Auditorium and Adjacent Facilities**
The Cabinet reviewed the proposed policy, which had been distributed earlier. Several recommendations for revisions were made as follows:

1. It was recommended that it be called an Exhibit Hall and that the seating availability be included in the description, due to concern regarding calling the room an auditorium as it relates to limiting usage.
2. The Sound system has not been funded yet. A discussion followed and it was decided that there would be some type of temporary sound system. The first paragraph needs to be revised to reflect these two items (1 and 2.)
3. The wording in Rank 5, Section 1A (Scheduling) as well as throughout the policy, concerning the Foundation be revised to read "foundations," so as to include all foundations of the College.

4. An additional ranking be added (Ranking 6,) to include "Other public educational entities" so as to encompass RESA, the Tech Center, and other public educational organizations.

5. Section 1BI was clarified in that student fundraisers would not be disallowed as they are not in direct conflict with the Monte Carlo event.

6. Section IID. was revised to add that "decorations must be removed immediately following an event."

7. The University System of Georgia Alcohol Policy should be reviewed and incorporated into this policy.

The policy was approved as revised.

Draft Plan for Implementation of the Policy for Waiver or Adjustment of Tech Fee

The Plan was approved with the following stipulations:

1. Students must be made aware that they must meet one of the three requirements or they need not request waiver.

2. It should be noted that fee adjustments are more likely than waivers.

3. Student whose fees are waived because they use their own computer must know that the College is not committed to them with resources such as the Help Desk.

CIRP Study

Dr. Wills gave an overview of the Study (survey) and recommended that the College not participate due to the cost. She presented information on another survey done by AACC and ACT to assess college student career goals. The cost of the survey will be paid by the sponsoring organizations. A discussion followed concerning caution that should be taken with duplicate surveys, as the University System will continue doing the graduates satisfaction survey in the immediate future. It was noted in the discussion that the AACC survey will show the diversity of student career choices. Whether or not the College should continue in two tracks (of surveys) will be monitored and decided at some point.

Digital Millenium Copyright Act

Dr. Lord explained that this federal act limits the liability of on-line carriers for copyright infringements. She recommended Debbie Holmes and the Computer Committee as agent to investigate alleged copyright infringements on the Floyd College web site. The Cabinet approved the recommendation.

New Facility

The Lakeview Building has been turned over to the College with a Certificate of Occupancy. The inspector has given a list of mostly cosmetic modifications to Doug Webb. Dr. Cundiff reported that DOT will expand and resurface the parking lot in front of the building. He also added that a parking lot will be added near the Library building.

Barnes Education Reform Study Commission

The Cabinet discussed the 63-member group from throughout Georgia appointed by the Governor to study education in the state.

Policy on Privacy of Online Activity at Floyd College
(Revised and approved by the President’s Cabinet on 5-3-99)

This policy governs the use of Floyd College computer resources by students, faculty, staff, and other persons authorized access to these facilities by the college.

It is recognized that the use of networked computer resources, including but not limited to electronic mail, the World Wide Web, newsgroups, mailing lists, and chat rooms, are an important part of modern higher education, and are especially vital to the operations of Floyd College. Students, faculty, and staff members need and are encouraged to have access to these resources to assist them in the teaching and learning process.

Use of these resources should be restricted to institutional pursuits, to the greatest extent possible. It is recognized that the free and open exchange of ideas will often lead to communications that are not strictly related to a user's work at the college, and the college does not wish to constrain this form of communication, so long as the primary use of the college's computer and network resources are for legitimate institutional purposes. Further, the college does not wish to stifle communications between colleagues by intrusive monitoring of communications or online activities of users. Still, it is recognized that the college's networked resources can be inappropriately exploited for nonacademic purposes, and that the college has a responsibility to the taxpayers of this state to see that these resources are used ethically and efficiently.

To this end, the college may monitor, inspect, or review the online activity of any user when there is a reasonable suspicion that the user may be utilizing college online resources in an inappropriate manner. For the purpose of this policy, an "inappropriate" use would be any use that violated any of the state policies of Floyd college for online use, any use that violated or furthered a violation of state or federal law, or any activity that was clearly a part of a personal or corporate business venture not associated with authorized college activities, and for the purpose of personal gain.

However, except as noted below, no user account will be subject to any such monitoring, inspection, or review unless the user whose account is to be examined is given 24 hours notice of the intent to undertake such monitoring, inspection, or review, and has access to his account and online files during that notice period. Further, the user will be advised at the time of such notice the nature of the grounds that have given rise to this inspection. The user will be further advised when such monitoring, inspection, or review is concluded, and normal operations have resumed. If the monitoring, inspection, or review extends more than 10 calendar days, and the user continues to have access to his online accounts, the user will again be notified of the continued monitoring.

There may, from time to time, come exigent circumstances that require immediate inspection of a user's electronic files. If two or more members of the President's Cabinet (the college President may or may not be one of the two members) concur that such exigent circumstances exist, then a user's electronic files can be inspected without prior notice. In such a case, the user will be notified by electronic mail,
telephone, or in person of the inspection. This notification will occur at the same time as
the inspection. If reasonable efforts to contact the user are unsuccessful, then the
inspection may proceed anyway.

If the monitoring, inspection, or review of any user’s online account is pursuant to
a criminal investigation by a law enforcement agency, then applicable state and federal
laws may supercede this policy.

Alleged violations of this policy on the part of a faculty or staff member will be
addressed through the employee’s supervisor and normal disciplinary procedures.
Alleged violations of this policy by a Floyd College student will be referred to the Director
of Student Life for review.
