Choose Your Slogan

Several slogans have been presented to herald Floyd College into a new era. All faculty and staff members are invited to indicate their preference for a particular slogan by calling the public information office at ext. 6366 sometime in the next week. You may also submit a slogan of your own. The chosen slogan will be used in advertising, publications and presentations. It should exemplify the college's goals for the future.

Selections include:

Access to the Future
Enhancing Your Options
Moving Forward to Serve
A New Vision for You
Inspiring Future Success

Accolades

Belen Nora, chairman, division of nursing, has received a letter from the Examining Boards Division of the Secretary of State's office informing her that full approval was granted to Floyd's associate degree nursing program for 1993. The approval is based on a review of the department's 1991 report and the passing percentage of first-time writers taking the RN licensing exam.

Congratulations to Ms. Nora and her faculty!

President Cundiff has received a letter from Chancellor Probst who has completed his review of the college's annual report.

The Chancellor writes, "This Annual Report provides a record of a year of solid accomplishments during 1991-1992 at Floyd College. My commendation is offered to the entire college community for a job well done." He further mentions the list of faculty activities as "impressive in its depth, its breadth, and its diversity."

Philip Dillard, chairman, division of humanities, along with the President's Office, put the Annual Report together.

Community College Week

Community College Week will be observed the first week of February. We hope to celebrate with promotions and public recognition of the college.

Plans include having city and county officials recognize the college with proclamations, producing public service announcements for local radio and television stations, and encouraging special articles in area newspapers.

If you have any additional suggestions, or know of activities scheduled for that week which could be considered part of the celebration, please let Sandy Briscar, public information officer, know as soon as possible.

It is hoped that by celebrating this week, attention will be focused on the contributions community colleges make to the areas they serve. Emphasis will be placed on the affordability and diversity of programs offered, and how graduates return to work in and benefit the same community.
